Number 33

Quarterly Conference Is Held In Taylor Stake

Quarterly Conference of the Taylor Stake of Zion convened Saturday evening and Sunday of last week with Pres. H. S. Allen in charge of the sessions, and Elder Rufus K. Hardy of the First Council of Seventy presiding and representing the General Authorities of the Church.

It was a Priesthood Convention Conference and during the sessions activities of the various Quorums were featured and reports given of what had been done. Reports were made and talks given by the following local Priesthood Quorum officials: John F. Salmon, I. Bliss Roberts, J. Orson Bridge, J. Golden Snow, Alfred Romeril, C. A. Dahl, Ross Gibb, Bishop H. F. Allen, A. D. Woolley, Geo. Terry, Geo. Fairbanks, L. D. King, Bishop Walker, Mrs. Louis Brandy, Stanley Jones, Pres.idents H. S. Allen, O. H. Snow and J. W. Evans.

Elder Hardy was a speaker at each session and from the wealth of his years of experience in the mission field, having filled threemissions in New Zealand he related faith-promoting incidents showing the power of the Lord in this great work and the outstanding accomplishments of the Church in the face of continued opposition that could not help but make a great impression for good on the minds of his listeners.

The Stake Choir was present at all sessions, and under the baton of W. C. Stone, recently appointed Conductor, rendered suitable music for all meetings with Mrs. Paul Dahl at the organ. There was also a splendid programme of special numbers which added to the enjoyment of the meetings.

The M.I.A. had charge of the Sunday evening meeting, and usual interesting and inspirational programme was carried out.

BIRTHDAY PARTY

Mrs. Zilpha Hancock was guest of honor at a delightful arranged Birthday Party at her home Wednesday night, when her children and their wives and husbands gathered in honor of her 88th birthday.

A very pleasant evening was spent in games, conversation and refreshments, and 'Grandma' was the recipient of many beautiful remembrances also best wishes for her continued health and strength.

NOVEMBER W. I. MEETING HELD THURSDAY

The W. I. Meeting was held Thursday afternoon at the home of Mrs. R. Tollestrup, 19 women were present. Mrs. G. Holmes gave a very interesting paper on Canadianization and Immigration. Ira McBride sang "The Quintuplet's Lullaby" and "The Kiss That Made Me Cry." The report of two of the Conventions was next given, Agriculture and Canadian Industries by Mrs. W. Paris and Home Economics by Mrs. J. Miller. Mrs. Tollestrup and Mrs. Wigg played a piano duet followed by very splendid paper on "International Friendship" by Mrs. Kirkham.

Refreshments were served by the hostess assisted by two daughters. The next meeting will be held Dec. 12th at the home of Mrs. Godfrey Holmes.

With the improvement in industry across the States banks are opening new branches, last week's news stating that five new banks were opened in four states.

TO TAXPAYERS

The days for discounts on all Taxes will soon be over. You have until the 15th of December to pay and still get a small discount. After that date penalties will be added.

To those who have consolidated taxes, as you are aware, unless the current taxes and the percentage of the Consolidated taxes for this year, are paid on or before Dec. 15th, the contract becomes null and void, and your property is the same as though nothing had been paid.

The Town needs the money. Tax collections have been very slow. You need the benefit of the discount. A prompt payment of taxes will benefit all concerned.

Read the ad. on page 4 of this issue, then call in at the Town Office and PAY UP.

NEWS NOTES

Mr. and Mrs. Howard Oliver of Calgary spent the week-end and Armistice Day with relatives here.

Bishop Allen has been on the sick list with a very bad cold, and is not well yet, but is attending to his work in the store.

A great SHOW by a great TEAM. Ruby Keeler and Al Jolson in "GO INTO YOUR DANCE" at the Capitol Tonight and Saturday. See it.

The Stake Primary Pantry Sale on Saturday was the best patronized of any they have ever held, the cold, stormy day notwithstanding. Nearly everything they had was sold.

The Annual Social of the 145 Quorum of Seventy is planned for the High School Gym on November 20th, and the program by the Quorum of John H. ram will include an appreciation of Blackmore, he being a member of this quorum.

England has decided to increase her employable youth by insisting on students remaining in school until 15 years old. Fourteen years has been the compulsory age for a long while but the idea is that another year will make them better for employers.

A steam train in Britain pulled the silver has set a mark of 112 miles an hour, without any vibration, and in perfect control. On its run from Newcastle to London, its average speed is 67 miles an hour including stops. And we have been told the days of steam are numbered. Maybe Not.

William Deloy Clark and Miss Norma Isabelle Christensen of Stirling, and Miss Amy Zaugg of Stirling and Alva Wright of Mountain were married in the Alberta Temple last Wednesday by President Wood. The best wishes of the district are extended to the newlyweds for a long and happy married life.

Miss Leona Cudmore of Blair more was almost instantly killed Friday night in an auto crash west of Coleman, when the car struck a railing of the bridge 1 piece of timber tearing through the windshield and killing the girl as she sat in the front seat, and seriously injuring Steve Brodosky as he sat in the back seat directly behind Miss Cudmore. The driver is being held for investigation. The driver escaped almost unscathed, and Mae Cudmore, sister of the unfortunate victim escaped with a shaking up.

What Is The Future Of Your Boy Worth?

(Editorial)

A move is on foot, sponsored by the Athletic Association and boosters of sport in the town, to bring in an Athletic Coach for the winter season, who will take over and coach all lines of sport in the town. His work will include basketball, gymnasium classes, hockey, etc., in the winter and if a scheme can be worked out all sorts of summer sports in the summer months.

This program will require money and we are not unmindful that no one is overly flush with this medium of exchange. At the same time, for what it would cost per family, we have no hesitation in saying that any person interested in the future of the youth of the land could not make a better investment than to subscribe a few dollars to this cause. Before you dismiss this thing from your mind think over this statement, made by one of our leading citizens.

A certain town was mentioned as never having fostered sports, and this town had turned out the finest crop of pool hall and restaurant bums of any town its size in the West. "What will a man give in exchange for his soul," queries the sage, and is any price too great to train our boys in discipline and good morals.

The Athletic Association have been leading out in negotiations in this field and have promised financial aid enough to partly pay the thing through. You are likely to be canvassed. Don't say no. Your boy or girl may get the very thing they need to keep them going in a way that will be a credit to you, and the community. If they did you would always be glad of the investment.

There is another point that should be considered. We have done very well in the past with our local men acting as coaches. The results have been praiseworthy, and we say all hail to the labors and success of those who have taken the lead in these things. This year finds our Basketball teams badly disorganized through members moving away, and other causes, and our coaching material also diminished. Without ersing any reflection, it is a matter of common knowledge that many strategic games and championship ships have been sacrificed by Raymond because of a lack of punch for "the last hurdle" in the game. With the material we have it would be nice to find out just how good a machine could be worked up with a good coach to put that "punch" into the pinches.

As a citizen, your pride in past accomplishments and your hope for the future should be worth a small gamble on this thing, and with the lead that has been set by others, it should be your ambition not only to willingly donate our share, but also to encourage others to "chip in" and put this plan on paper. If it is tried and doesn't work, well, no 1 is injured, and if it accomplishes half of what is hoped for it, it would be the best investment RAYMOND ever made.

Don't turn it down. You support is worth a great deal and is needed.

General Motors reports the highest sales in cars and trucks since 1927.

Golden Snow had a carload of Raymond people to the Temple at Cardston Wednesday. Among them were Mr. and Mrs. W. G. Anderson, and children, who recently arrived from England.

Mr. and Mrs. Albert Winkler were in Lethbridge on business last Saturday.

The Carnival will soon be here. If you haven't your ticket yet you should buy it and keep the Carnival dates open. November 28th and 29th. The big time of the year.

J. H. Blackmore Honored Friday Night

Despite the storm which blew up just about dark Friday night and raged until 10 p.m., a fair sized crowd gathered at the Opera House Friday night to honor John H. Blackmore, B.A. elected M. P. for Lethbridge Constituency. The crowd was made up principally of Raymond people, but a number were present from Lethbridge and even farther north and east.

D. G. Selman, president of the local Social Credit group, was in the Chair, and conducted the following program.

Singing "O Canada." Introductory remarks and words of welcome by the Chair man.

Cornet Solo—G. W. Rouse. Vocal Trio—The Proctor Twins and Miss Erickson, of Stirling.

Remarks as a father and parent, in tribute to guest of honor—John Powelson.

Male Quartette—F. R. Taylor and Co.

Tenor Solo—T. K. Roberts. Toast to King and Country S. E. Low, M. L. A.

Reply by N. E. Tanner, M. L. A. of Cardston Constituency. Tap Dance—Margaret Roberts.

Musical Monologue—Melba King.

A round of prolonged applause greeted J. H. Blackmore as he arose to speak, and the audience listened attentively while he thanked them for their support, assured them he felt the responsibility they had placed upon him, and hoped that after 5 years, they would not could say as they say now, "It was a great people's victory. He had great visions of the future of the wonderful British Empire and hoped to see the day when Canada would take the place in this great Commonwealth where she should be by reason of her populace and her advantages, as the brightest gem in the crown. While he did not believe in endeavoring to accomplish everything by prayer, he was convinced that without prayer it was impossible to accomplish very much; he intended to mix faith and prayer and works for the accomplishment of his duties.

Banjo Solo—Wm. Burrows. God Save the King. The chairs were then taken off the floor, and the crowd enjoyed a couple of hours dancing, during which time refreshments of Sandwiches, Cake and Punch were served, there being plenty for all.

A silver collection was taken to defray expenses, and everyone went home feeling well rewarded for the time spent at the social.

Veterans Honor Fallen Comrades Monday

The members of the local branch of the Canadian Legion honored the memory of their fallen comrades Monday, when at 10:45 a fair crowd gathered at the memorial where short services were held and wreaths placed in remembrance of the dead.

At 1:30 in the Club Cafe the annual luncheon and meeting was held, when 34 sat down to a delicious turkey dinner prepared by the Cafe management, and did full justice to the turkey and its trimmings, topping off with pie and ice cream.

Dr. Leech proposed a toast to "The King," and "Our Fallen Comrades." Mayor Meeks proposed the toast to "Our Comrades in Arms" and Father McGinnis replied to this toast, and in a masterly manner outlined the events internationally which led to the outbreak of the war and eulogized in glowing terms the part the armies of Canada had played in the struggle for human liberty, stating that despite the fact they were recruited from the farms and cities, green and without previous training, in a few short months they developed into the most self-reliant and persevering of His Majesty's troops, and were taking their places with the best of them. The Father's talk was followed by everyone with the keenest interest, and it showed a wealth of information regarding international matters.

J. H. Blackmore, M. P., and

Solon Low, M. L. A., were present by special invitation and expressed their respect and sympathy for the returned man and his problems, and promised to do all that was possible to assist him in getting a just deal in legislation which might be proposed.

ELECTION OF OFFICERS Following this, and with C. D. Compton, President, steering the meeting the business of the annual reports and election of officers was proceeded with. The Financial report was read by Paul Redd, the Secretary, D. H. McRae having moved away, & a resume of the activities of the past year given by President Compton. Both these reports were accepted and the election resulted as follows:

President—B. J. Combs.

Vice-President—L. J. Mehew.

Sec.-Treas.—Leo Brewerton.

Executive Committee—C. D. Compton, G. W. Rouse, W. D. Mendenhall, T. K. Roberts and L. B. Middleton.

A Chaplain will be appointed by the Executive Committee.

The opening of a Club room and arranging of Smokers, etc was discussed and left with the Executive for action.

A number of the members journeyed to Lethbridge to join with the Lethbridge boys in their Annual Dinner, and returned for the Dance at right in the Opera House, where a nice crowd gathered and enjoyed a splendid evening.

NEWS NOTES

Kids are making good use of the old swimming pool for skating these days, waiting for the skating rink to get flooded.

Statistics show that 100,000 head of cattle have been shipped to the U.S. this year, despite a duty of \$15 to \$45 per head.

Mayor Meeks and Secretary O. H. Snow were business visitors to Lethbridge Friday, and attended the Lion's monthly luncheon while there.

W.B. Porter of Porter's Garage was in Lethbridge Friday.

The weather was nice and warm Friday, and quite a lot of snow and ice melted.

J. H. Blackmore, B. A., was among the speakers at the Teachers Convention in Lethbridge last week.

Blaming high license for the scarcity of hunters, farmers in the south-east of the Province are complaining about the number of antelope, which they say are eating the grass needed for stock.

Town Council Held Long Session Thursday Night

With Mayor Meeks and all members of the Council present, also Secretary O.H. Snow and Solicitor Ostlund present, a four hour session convened, and the problems of the Town discussed in detail.

S. B. Card was present with a delegation to see what the Town had in mind with respect to the Skating Rink. It was decided to operate the rink free as was done last year, with a schedule drawn up so that all ages may have their periods of recreation. Left with the Works and Property Committee to get the making of ice under way, and to select a caretaker for the rink.

L. McPhee was present on behalf of the Athletic Association for financial assistance in bringing a Coach into Raymond for athletics. The situation was discussed briefly but the Council did not feel ready to vote on it, so it was left over to a special meeting to be held next week for final decision.

Lighting the streets for the holiday season was discussed briefly, and it was decided to ask the Canadian Utilities for prices on materials to light a couple of blocks on Broadway with colored lights, and to defer action until next week when the prices could be in to the Council.

The question of added fire protection for the Town was discussed for some time, with the Committee being asked to investigate the chemical engine, tank and truck systems, and other suggestions and bring a recommendation to the next meeting. It was also decided to get a siren, large enough to be heard over the town and mount it so that it could be operated from the Telephone Office, so that as soon as a fire was reported the alarm could be immediately sounded.

Dr. Leech was present and spoke of the increasing amount of medical care he was giving to those unable to pay, and stated he was unable to carry on any longer. He asked the Council to consider some system of Medical contract so something definite and systematic could be worked out. After the Doctor left the Council spent some time discussing this subject, with the result that the Secretary was asked to write St. Michael's Hospital for proposals of what might be done in regards Hospital service. Cardston is also being communicated with as to details of their Medical contract and the Hospital scheme. This matter will also be further discussed next Thursday night.

A CITY OF GOOD NEIGHBORS

There are signs on all approaches to New Rochelle, N.Y., which read "Welcome to New Rochelle a city of good homes, churches and schools."

This is a good advertisement but one occurs to us for Raymond which would embrace New Rochelle's and possibly something more. How would this sound as a recommendation to prospective new dwellers here? "Welcome to Raymond, a city of good neighbors."

A neighbor is a person living near you. If he is a good neighbor he has many admirable qualities, some of which we will mention.

A good neighbor is a person living near you who has discovered the golden chord of understanding that binds the hearts of humanity together.

A good neighbor while interested in you, doesn't try to pry into your affairs, much less run them.

He may not rate the title of friend, and yet he is friendly.

He has a chest full of cheery "Hellos" and passes them out freely. He makes you twice glad "It's a fine morning". A fine morning is much finer when you have a good neighbor to share it with "and on the hand a dull morning is lots easier to bear."

A good neighbor is kind. Ordinarily he doesn't butt into your affairs but if sickness comes he carries in trays of things to eat that are more than mere food. They are offerings on the altar of humanity whose aromas reach up to the divine.

If the illness proves too much for nature, neighbors and the doctor, the good neighbor comes in and lifts the load of common duties by sweetening baking, arranging, Nothing is too menial for him and he does it graciously and without show.

In short a good neighbor respects you for what you are, is kind, clean living, friendly, helpful, unobtrusive yet Johnny-on-the-spot to see you through the worst that life can hand to you.

He lives near you, he puts up with you and stands up for you and when I say HE I also mean SHE for the human kindness of good neighborliness is more often than not personated by the gentle, sex.

So how about it? Whether we erect signs or not lets make Raymond a town more and more as a city of good neighbors.

MILLIONS CROWD SCHOOLS OF THE NATION

The biggest boom today is in education, the little red schoolhouse is working overtime, and high-schools are filled to capacity.

Parents and teachers in Raymond must pull together to make our schools function as effectively as possible. However there are times when we do not stop to realize that our local schools are part of a larger whole.

Helen Christine Bennett, surveying the educational field in November Cosmopolitan, points out that during the five years of depression, we have broadened our school facilities setting not only a national, but a world record. Here is how she classifies the groups that are overcrowding the school houses:

High-School students. Our high-school registration has increased more than fifty per cent since 1929.

Parents, by hundreds of thousands, learning to take care of their children, to improve their earning capacities or their ways of living. Middle-aged or elderly people seeking new vocations and avocations.

Illiterates who are not foreigners but Americans for generations back.

Industrial workers in and out of work, in classes connected with industries or trade unions.

Little children of from two to five years, depression victims, enrolled in nursery schools.

These figures, impressive as they are, do not include: One million students paying for correspondence courses. Six million reached by agricultural extension work. Five million in registered for classes in libraries, museums, clubs, lycerms, and open forums or the more radio classes, and three million than two hundred thousand CCC boys who attend classes in off-work hours.

Counting just the people going regularly to our public schoolhouses—and the overflow under school supervision—one in ever four persons of our entire population of all ages is today going to school Mrs. Bennett states.

America does much to make every possible provision for the education, the interesting enlightenment of her people.

When the other fellow shows off I am disgusted. How can I sell myself to others by using the same tactics.

Some folks always look to some distant day to get their fun-pay for the work of living. Every day is pay day for the man who looks for it expectantly.

Most corners can get along without an one individual. Hence the exquisite joy that must be in the heart of George who has been recalled by a popular vote to be King of the Hclenes..

HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

GROWING UP

The child's life is one of continuous growth and development. Born with certain instincts and a given measure of intelligence, his future depends largely upon how he is helped, particularly by parents and teachers, through his various stages of development.

Much has been revealed by science concerning the nature of disease. We are, today, able to do more in the prevention of disease and in the preservation of health than ever before in the history of man.

We have learned that if a child is to grow up in a satisfactory manner, his mental and emotional development must receive consideration. It is generally agreed that what kind of adults we are to become depends, more than anything else, upon the start which we receive during the first five years of life.

The child requires a sense of security in his home. He needs freedom to develop, to become independent and to free himself gradually from his mother's apron-strings. Many parents find it hard to let go. The mother who is over-protective and over-protective in her relationship with her child is most surely expressing some lack in her own life. She wants someone to depend on her, but what she may think is an abundance of love for her child is really an expression of selfishness on her part.

The child must learn to overcome difficulties and to meet problems. He should be assigned tasks, suited to his age, which will call upon his powers to overcome. He must not fail to often, or he will come to accept failure as normal. The child wants to achieve and to receive for his achievements that recognition which he should have.

It is when normal development is halted by the lack of some of these essentials for healthy mental growth that the ground is being laid for difficulties in later life. Many of the problems and difficulties which afflict mankind arise from failure to grow up emotionally.

One thing we know is that as adults we make use of physical complaints to escape from something unpleasant if we have not learned, as children, to face conditions. Headache or sick stomach may arise from eye-strain or from gastric ulcers, but may also come from worry, fear, anxiety or family discord.

The future happiness and efficiency of each one depends largely upon his start in life. If as adults, we remain in part children, then we are likely to have an uncomfortable time ourselves and to be a nuisance to others. Parents should learn how to guide their children to maturity—help them to grow up.

Questions concerning health, addressed to the Canadian Medical Association, 184 College St. Toronto, will be answered personally by letter.

NEWS NOTES

A nasty blizzard held sway most of Friday night and Saturday forenoon. It blew out along towards noon, and the afternoon of Saturday was warmer, with quite pleasant weather on Sunday.

Some democrats have been saying "I had rather be right than Republican. Some Republicans have been saying, "I had rather be dead than Democrat." Now that election is over we'll have to suffer along with both.

We will have a long winter if it keeps on like it has started. However, what is one man's meat is another man's poison, and the coal men and the dry goods merchants are getting a great harvest from the protracted cold spell.

EXPERIMENTAL STATION, LETHBRIDGE

WINTER EGG PRODUCTION

The season of high egg prices is at hand and during the next few months the poultry man should make a good profit if his birds are in production. In view of the general interest in this subject at this time of year, the author has no hesitancy in repeating what was said in a letter published about a year ago.

At the Station some of the pullets have been in production for three months or more and others are just coming into production. No secret processes are entailed in achieving this, but two simple basic principles are followed. Early hatched birds of a productive strain and proper feeding methods combine to make possible good production when prices are high.

Balanced rations are used and this simply means that the materials required for making eggs are provided each bird in its feed in such amounts that an egg can be produced practically every day. While a fairly elaborate ration is used at the Station, home-grown grains properly supplemented form very satisfactory rations for egg production. However, farm grains alone do not supply enough of all the essential elements and

supplements must be added for best results. Beef scrap is the protein supplement used at the Station and bone meal is also added to the ration to supply necessary minerals. Cod liver oil is another essential supplement used to supply vitamins A and D which are of primary importance and without which the body functions of the birds do not take place normally.

Skim milk is provided to some of the birds at the Station but sufficient is not available so that all can be fed this highly nutritious supplement to the grain ration. Whenever skim milk is available the purchased protein supplement can be greatly reduced, but it is questionable whether it should ever be entirely eliminated from the ration. Too many poultry producers fail to grasp the importance of the protein supplement to a ration and yet it does appear so logical that a bird cannot be expected to produce eggs if the necessary materials are not supplied to her. Fortunately the better class of poultry producers are paying more and more attention to the principles of feeding and are reaping the benefits of this in increased returns.

In addition to the mash and scratch, charcoal and oyster shell are placed in hoppers where the birds can get at them

at the time. While charcoal has no actual feed value it appears to have a regulatory effect on the digestive systems of the birds. The oyster shell supplies lime required in the manufacture of egg shell.

Two feeding methods are employed at the Station, one the mash and scratch and the other the all mash system. The first mentioned is that most commonly used and has a number of advantages, but the all mash system requires less labor and attention in feeding as all the feed is strictly self-fed. We have found that when the birds first become accustomed to this system of feeding it appears to be as satisfactory as others. Some feeders have found difficulty in keeping their birds in satisfactory body condition when scratch is not fed, but this may be partly due to the ration not being properly balanced.

Bulletins and circulars dealing with poultry feeding can be obtained from the Experimental Station.

DON'T EXPERIMENT

It is not bravery that prompts anyone to say "I'll try anything once." It is bravado. And there is a great difference between bravery and bravado: the former implies intelligent courage, but the latter is mere boastfulness.

We have only one life, why should we endanger it unnecessarily? We have only one face why should we subject it to risks? And yet, by their actions, women seemingly underestimate the delicacy of the skin. Irreparable damage can be done to it by experimenting.

By experimenting with your face, I mean trying anything and everything you hear about new or old. Do a little investigating before you take chances with that precious possession, your skin.

Here are a few little hints to guide you in your search for the right cosmetics for your skin:

First, remember that a clean skin should have a basis of vegetable oils. It should have "body," so that the dust and dirt clogging the pores may be lifted out, leaving a complete clean skin as a basis for beauty building. Pimples are so often caused by irritating particles of dirt that have not been completely removed each day. Mineral oil has no affinity for the natural oils of the skin, and therefore is not a proper basis for any face cream; and one made completely of animal fats might have a tendency to make the hair grow on the face, which vegetable oil will never do.

Now, in choosing a lipstick, or cream rouge, buy only those whose coloring is produced from pure vegetable coloring matter. In this way, they will not poison a cold sore or pimple for the skin.

Next: The Dry Skin.

For expert advice on your beauty problems, write Woman's Interest Syndicate, 126 Bloor St. W. Toronto, Ontario.

Two busses were here Saturday evening, and on Sunday the bus from Magrath brought a great number to attend the Conference meetings.

NEWS NOTES

John Palm is confined to his
home with illness, and may have
to go to the hospital for treat-
ment.

Western Canada's wheat crop
is 2,000,000 bushels below 1934
averages due to drought in places
and frost and rust in others.

Mrs. M. H. Gibb of Magrath
was a guest of her son J. L.
Gibb and family on Sunday
last.

Alberta's treasury benefited by
\$13,200 as a result of the last
Provincial election, when 132
candidates lost their deposits.

King George II of Greece has
been returned to his throne by
an overwhelming majority. After
a number of years as a republi-
can Greece decided to try the
monarchical form of Govern-
ment again.

Elles Rufus K. Hardy, of the
First Council of Seven, who
attended Conference here Sat-
urday and Sunday, left for Salt
Lake City Monday from Leth-
bridge, Pres. Allen driving him
to that point in the afternoon.

Mr. and Mrs. Chas. Porter
of Medicine Hat, parents of W.
P. Porter, proprietor of the
Sugar City Motors garage,
spent Sunday with their son
and family in Raymond. Mr.
Porter Sr. is in the garage busi-
ness at medicine Hat, and was
driving a shiny new Terraplane.

Mr and Mrs. R. T. Graham
returned home Monday evening
from a six weeks motor trip
which took them to Utah and as
far east as Council Bluffs, Iowa.
"Bob" reports a lovely time,
but says the time was too short
and he didn't like coming home
in so much winter either. He
reported good roads generally,
but icy places which were very
dangerous.

NEWS NOTES

Next Thursday, a picture all
will enjoy "The KEEPER OF
THE BEES," by Gene Stratton
Porter, at the Capitol. Thurs-
day is DONATION NIGHT.

Herman Linder, well-known
rodeo performer was thrown in
Bastion Monday night and broke
a couple of ribs. He is improv-
ing nicely, and will likely soon
be in the saddle again.

Premier King is signing the
Trade agreements with the
United States in Washington
today, after which the contents
and nature of the concessions
will be made public. In the mean
time people are just guessing
as to what they are.

Mrs. P. F. Wakenon of Victo-
ria, 43 years old, has yawned
nine times a minute for the
past 65 days, and so far doctors
have not been able to do any-
thing for her. She has lost 20
pounds during the seige of
yawns.

Unreported for several days
over the Bay of Bengal fears
are held that Sir Charles Kings-
ford-Smith and his mechanic
came to grief and probably
drowned. There is a chance
however that they are stranded
in the tropical jungle some-
where.

Bringing into effect a statute
passed in 1920, Premier Aber-
hart has banned smoking by all
civil servants during working
hours, and they must stay at
their desks until the quitting
bell rings. A. L. Sweeney, civil
service commissioner has an-
nounced the bringing into im-
mediate effect of this ban.

THANK YOU!

Mr. and Mrs. Wm. W. Rode-
back wish to thank their many
friends who have helped them
in this time of misfortune.

NEWS NOTES

Next Thursday, a picture all
will enjoy "The KEEPER OF
THE BEES," by Gene Stratton
Porter, at the Capitol. Thurs-
day is DONATION NIGHT.

Garages are packed to the
doors every night now with
cars and trucks seeking storage.
These cold nights make motor
vehicles very hard to start.

We can be very thankful that
the present cold spell didn't
come at the peak of the depres-
sion. As it is, there is little likeli-
hood of any one suffering due
to lack of means to provide
themselves with what they are
in need of.

Premier King has announced
a change in the date of the
parley of Premiers, and the new
date set is December 9th. This
date will give an uninterrupted
week for the Conference and
will give added time for the ar-
ranging of the program.

Archie Soma, 3 1/2 year old son
of Mr. and Mrs. Myra Soma died
of burns following a gasoline
explosion in the kitchen of their
home 7 miles from Tofield Sun-
day. The parents with the
burned boy and an eight mon-
ths old baby struggled through
heavy snow for a mile to a nei-
ghbors clad only in light cloth-
ing.

AUTO PRODUCTION IN OCTOBER 255% ABOVE SEPTEMBER

New York, Nov. 13.—An in-
crease of 255 per cent in the
October output of members of
the Automobile Manufacturers
Association compared with Sep-
tember is announced.

The sharp increase in produc-
tion of cars and trucks, the as-
sociation reported, was due to
the advance in the date for new
models this year.

The association's members
which include all but one major
producer, turned out 210,392
cars and trucks in October com-
pared with 59,329 in September
and 94,059 in October, 1934.

In the first 10 months of the
current year the outturn was
2,241,229 units, a gain of 21
per cent over the 1,852,657 un-
its in the like period of the pre-
vious year.—Christian Science
Monitor.

During the Quarterly Con-
ference Elder Rufus K. Hardy
was a guest at the home of
Pres. and Mrs. O. H. Snow.

Congratulations to the Wain-
wright Star on passing its
twenty-seventh birthday. A lot
can and does happen in 27
years and the old files of the
Star or any other paper if re-
ferred to would prove this point.
